Mr. [REDACTED]

25X1A9a

Dear Mr. [REDACTED]

25X1A9a

We were happy to have had the opportunity to discuss with [REDACTED] the personnel assignment and T/O problems of the components under your supervision. He no doubt has already reviewed with you many of the considerations [REDACTED] generally and the processing of the stenographers you so urgently need.

25X1A9a

25X1A

Our letter of 19 March 1952 gave a T/O breakdown for seventy-eight positions. That unfortunately was in error in that the four components together have a total of eighty-four. Being forwarded to you under separate covers are complete recitals of the personnel status of each of the four. These will be reflected in our records here. We know, however, that necessary personnel reassignments have been made locally by you to meet the changing needs as you have seen them. Part of the confusion between your station and headquarters has no doubt been due to the fact that our records have not kept up. We would much appreciate, therefore, an analysis from each component, similar to the ones we are sending, addressed to the respective component here, in order that the records may be brought into line.

If there are any further questions which cannot be answered by [REDACTED] or by the dispatches referred to above, please let us know. 25X1A9a

Sincerely,

/s/

25X1A9a
